

Project Demo Planning

Date	3/7/2026
Team ID	XXXX
Project Name	Personalized Networking Assistant
Maximum Marks	1 Mark

Project Demo Planning:

This project was completed individually. The plan below outlines how the Personalized Networking Assistant demo will be presented, covering the flow, key features, and timing.

S. No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the Personalized Networking Assistant and the problem it solves — helping professionals start confident, relevant conversations at networking events.	2	J.Aasma
2	Solution Overview	Walk through the architecture: Streamlit frontend, FastAPI backend, Google Gemini API, and Wikipedia fact-checking.	2	J.Aasma
3	Live Demo: Generate Starters	Enter an event/industry and show AI-generated conversation starters being produced in real time.	3	J.Aasma
4	Live Demo: Fact-Checking	Demonstrate fact-checking a generated talking point against Wikipedia.	2	J.Aasma
5	Live Demo: History & Fallback	Show the History tab with past starters, and demonstrate the fallback starter behavior when the API quota is simulated as exhausted.	2	J.Aasma
6	Testing & Wrap-up	Show the 15 passing pytest results, then open the floor for Q&A.	2	J.Aasma

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Briefly explain networking anxiety and the lack of relevant, fact-checked conversation aids.
2	Solution Overview	Highlight the tech stack and how Gemini + Wikipedia work together in the app.
3	Live Feature Demonstration	Cover starter generation, fact-checking, history, and fallback behavior end-to-end.

4	Q&A Session	Address questions on architecture choices, API quota handling, and future scalability plans.
