

No. of Functional Features Included in the Solution

Date	30/06/2026
Team ID	xxxx
Project Name	Personalized Networking Assistant
Maximum Marks	5 Marks

Functional Features Overview

This document lists all the functional features included in the Personalized Networking Assistant, with purpose, implementation status, and contribution.

S. No	Feature Name	Feature Description	Module / Component	Status	Marks
1	Event Theme Analysis	Analyzes user-provided event details using Gemini to extract relevant conversational themes	event_analyzer.py	Done	2
2	Conversation Starter Generation	Generates 3-4 sentence personalized conversation starters based on extracted themes	topic_generator.py	Done	2
3	Fallback Starter Templates	Provides rich pre-written starters when the Gemini API quota is exhausted or a call fails	topic_generator.py	Done	1
4	Fact Checking	Verifies factual claims/topics against Wikipedia before they're used in conversation	fact_checker.py	Done	2
5	Session History	Saves and displays past sessions (event + generated starters) for later reference	main.py, data/history.json	Done	1
6	User Feedback Capture	Lets users rate/save feedback on generated starters for future improvement	main.py, data/feedback.json	Done	1
7	Premium Streamlit UI	Glassmorphism design, gradient cards, and stat cards for a polished user experience	frontend.py	Done	1
8	Automated Testing	Unit tests covering the core services to ensure reliability	backend/tests/test_services.py	Done	2

Feature Summary

Total Features Planned	8
Total Features Implemented	8
Core / Must-Have Features	Event Theme Analysis, Starter Generation, Fact Checking (3)
Additional / Nice-to-Have Features	Fallback Templates, Session History, Feedback Capture, Premium UI (4)
Features Tested & Verified	8 / 8 (via 15 passing pytest cases + manual UI testing)

Feature Category Breakdown

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	1	Premium Streamlit UI
2	Backend / Logic	3	Event Theme Analysis, Starter Generation, Fallback Templates
3	Database / Storage	2	Session History, Feedback Capture
4	API / Integration	1	Fact Checking (Wikipedia API)
5	Security / Authentication	0	Not applicable - single-user local app, no auth required
